

Ahmed Rabar

Full-Stack Developer

✉ ahmedrabar01@gmail.co m ☎ 0656513374  Ahmed Rabar  Ahmed-rbr

Profile

Full-Stack Developer in Training, with foundational knowledge in JavaScript, PHP, and MySQL, and hands-on experience with modern frameworks and tools such as React, Tailwind CSS, and Laravel. Currently pursuing further learning, I am eager to gain professional experience in web development through real-world projects and dynamic work environments.

Education

Jobintech formation en développement Full Stack	present
License Fondamentaleles En Gestion des Entreprises	2022
Baccalauréat en science physiques	2019

Languages

- Arabe
- Anglais
- Français

Projects

Project 1: Job Board Application (React.js)

- Developed a CRUD job board application with real-time database updates.
- Applied OOP principles in React (modular components, state management).

Project: Wathi9a (React + Tailwind CSS)

- Developed a React web app to guide Moroccans through administrative procedures with clear, step-by-step instructions.
- Implemented features like search, category filters, d, and saving favorites using localStorage.
